Dash For a Cure For This Rare Genetic Disorder

Dylan Egan Kolar, a lively four year old living in Sayville, was diagnosed at the age of one with this rare bone marrow failure syndrome. Within his first year, Dylan received eight blood transfusions and was hospitalized a number of times for infections secondary to bone marrow insufficiency. He is currently doing very well under the guidance of the wonderful doctors of Schneider's Children's Hospital. But, more research is necessary to help Dylan and all the other children struggling with bone marrow failure syndromes.
